

Intelligent parking. Superior experience.

Telexper drives better performance, efficiency and security. Our next-generation parking guidance will bring you the kind of conveniences that increase market share and repeat businesses.

Intro:

Now, your customers will not need to worry about detouring around your parking lot anymore. With Telexper's expertise in video/image processing, we introduce Smart Parking Guidance System. Every customer can experience stress-free parking treatment. We offer the highest quality and efficient parking solution to both managers and drivers.

Signs will show the number of free spaces in the entire parking garage or on different floors.

Lights will direct drivers the way to the closest available spot.

Cameras will monitor car properties and locate where the drivers' cars are.

Kiosk and APP will save your customers time by quick car-searching.

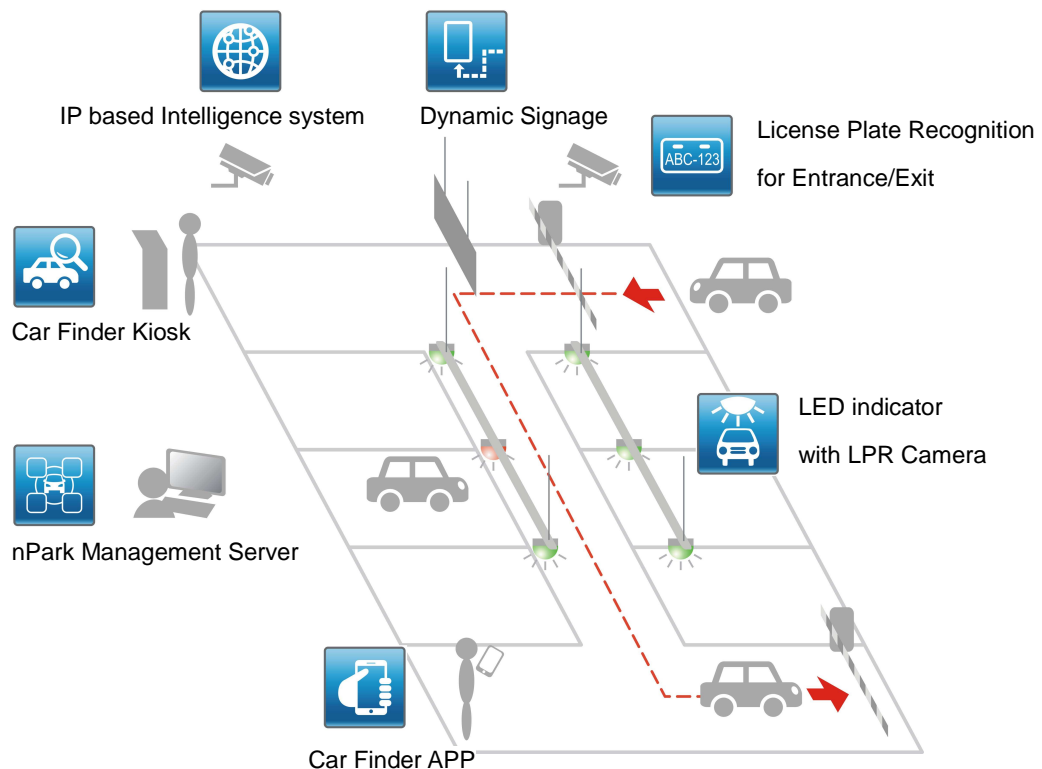

Benefits for Car Park Owners

- Improve traffic and security via camera-based technology
- Accurate and real-time occupancy information and statistics
- Enhance parking lot usage
- Lower admin and operating costs
- Optimize return on capital parking investment
- Reduction of carbon monoxide emissions

Benefits for the Customers

- Stress-free parking experience
- Intuitive parking guidance while looking for vacant space
- Shorter time to find available parking spots
- Interactive APP to locate and monitor the car any time, any where
- Fuel savings

Value-added & Seamless Integration

We integrates with other essential parking lot related systems via IP network. By using our IP based intercom with IP camera, parking lot manager can provide immediate assistance from the center, instead of bustling around. When emergency happens, you will need an intelligence IP PA system to fasten the evacuation. Building up an intelligent and convenient environment encourages repeat visits and ensures effective management controls.

Enhanced **Emergency Intercom** provides a safe environment for your parking system.

- 2-way audio communication over IP networks with Echo Cancel feature
- Built-in hidden megapixel IP Camera
- Remote control by a computer or Mobile APP

Support **IP based Public Address System** to evacuate people in the quickest way during emergency.

- Digitalized audio signal transmission via network
- Broadcast single or multiple zones via Mobile APP
- User-defined music schedule by day, week, and month

CCTV Integration creates safety and gives a sense of security.

- Surveillance in daytime and nighttime
- Megapixel Resolution
- Versatile and Various camera types
- Intelligent motion video analytic software

MultiViewer gives you full control of your parking lots.

- No boundary, no limitation on management
- Live view of each parking space
- Gather current status of all facilities

Applications

Ranges from luxury hotels to public buildings, international airports to local schools, shopping centers to hospitals, Telexper's Parking Guidance System will fit in any indoor parking lots. With the easiest installation and cost-effectiveness, we make the parking solution more scalable and flexible.
